Dear Sir:

This is in response to the Office Action mailed on October 3, 2001 and labeled paper number 6, the time for responding thereto having been extended for three (3) months so that a response is due on or before April 3, 2002. The following amendments and remarks are submitted in connection with the above-identified patent application. Reconsideration and reexamination of the application is respectfully requested at this time.

Kindly amend the subject patent application as follows:

AMENDMENTS TO THE CLAIMS

Please amend claim 1 as follows:

1. (Amended) An apparatus for providing a pictoral representation, comprising at least one static presentation region for providing at least a first, unchanging rendering and at least one dynamic presentation region adjacent said at least one static presentation region, said dynamic presentation region providing at least a first series of changing renderings; said static presentation region being cast in a first medium and having a plurality of openings formed therein, said openings accommodating the dynamic presentation medium which is cast in a second medium.

Please amend claim 18 as follows:

18. (Amended) A method of generating a pictoral representation comprising the steps of: providing a first region having a static presentation, and providing at least one adjacent region displaying a dynamic presentation; said static presentation region being cast in a first medium and having a plurality of openings formed therein, said openings accommodating the dynamic presentation medium which is cast in a second medium.
